About SBSX

The Skateboard Supercross Academy provide a standardized approach to teach every single person four years and above to learn how to skate. Skateboard Supercross looks to establish a state of the art facility in every single municipality around the World and interconnect these facilities via virtual network so that skaters can meet each other, share their passion and eventually compete against each other.

Project Objective

Skateboard Supercross have unique need of Web and Mobile based product to registering members online, scheduling classes, and tracking the skill development of skaters.

Solution

Features Developed

- **Permission Management**
- **User Management**
- **Teacher Management**
- **Report Card Settings**
- **Event Management**
- **Finance Management**
- **Course Management**
- **Push Notification**

Solution

Benefits of Our Solution

- **High usability**– Easy to use, efficient solutions.
- **Scalability**– Tough, bug-free, optimized and scalable solution.
- **Increases productivity**– By decreasing time to maintain the track records and increased accuracy in organizing the data.
- **Access from anywhere**– A record of everything can be kept due to its easy accessibility and also facilitates providing immediate information.
- **Save paper & reduce teacher workload**– This Application is ahead of the curve, providing full automation of all the functions of academy administration and achieves the goal of paperless administration.
- **Connect multiple departments & campuses**– It enables academies with excellent ways to systematically manage academies in multiple locations. It is a simple and powerful solution that connects all departments and campuses in a single integrated platform.
- **Complete automation for smarter decisions**– This Application helps in organizing various aspects of academy system including skater, staff, admission, time table, examination, fees, reporting and so on. The system helps administrators to access, manage, and analyze data and processes for quick and well-informed decision-making.
